

## Tailored Digital Policies

Based on your answers to “yes” or “no” questions, the LayerCompliance Platform generates policies and procedures that are specific to your clinic.

## Online Training for HIPAA & OSHA

The LayerCompliance Platform includes unlimited, self-paced training that is accessed online. Hire someone mid-year? They can access compliance training at no additional cost.

## Tracking and Oversight Dashboard

The interactive LayerCompliance dashboard generates real-time reports, so you can clearly see where you are in the compliance process and what tasks still need to be completed.

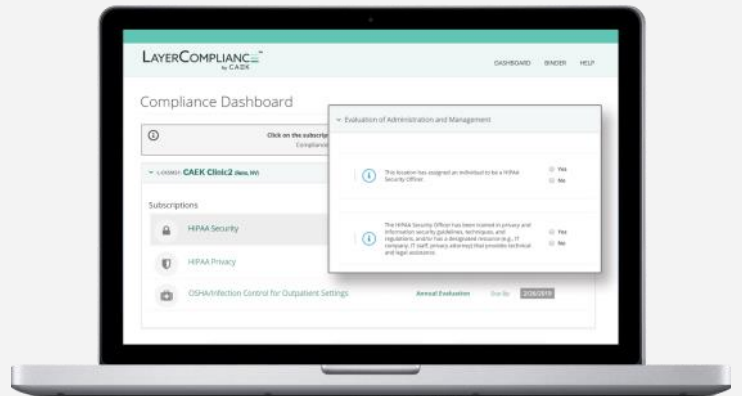

## Automated Tasks and Reminders

Worried that you have missed a compliance deadline? Through the LayerCompliance dashboard, users receive automatic notifications of important tasks specific to your office that need to be completed.

## Expert Support

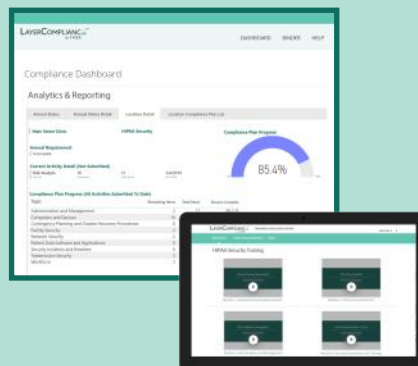

With a team of experts in HIPAA and OSHA & Infection Control, LayerCompliance offers a wide range of resources and live support to assist you as you build your compliance program.

## A Compliance Platform for Today's Healthcare

**HIPAA • OSHA • Infection Control**

Smart practice owners are turning to the online LayerCompliance Platform for HIPAA and OSHA & Infection Control. With a management dashboard, online training, HIPAA risk analysis, digital documents and automated checklists, LayerCompliance makes it easy to leave dusty binders and spreadsheets behind.
